November 2023 – in the rain

Our 13 years, grey, 100 cm stud Shetland pony stallion Abildores Volmer is up for sale. Volmer is healthy, fully vaccinated and tested free for skeletal atavism mutations. Volmers parents all track back to the British Shetland Studbook (SSB GBR) as verified on the attached pedigree. Volmer as well as his parents are assessed for breeding for life in Denmark by British Judges. Volmer's offspring are doing well at national shows in Denmark. Our stud is located in Denmark between Copenhagen and Rødby. Volmer will do as a perfect riding pony and for driving.

Foals by Abildores Volmer: *Abildores Kenny* (2022), *Abildores Kenya* (2022), *Sandøs Kára* (2022), *Abildores Lex* (2023) and *Abildores Legend* (2023).

September 2022

Abildores Volmer sælges grundet stop af avl med shetlandsponyer. Volmer er 13 år, skimmel (født sort med anlæg for rødt), 100 cm, rødt pas, vaccineret, passet med smed, kåret (SH812, 2A, nr 3 ud af 7) og Volmer er testet fri for skeletal atavism (dværggen). Volmer er rar hingst at arbejde med, han bedækker ved hånd og går fint i stod med hopper/føl. Tidligere trænet med lange liner. Potentielt køre/ride emne.

Afkom efter Abildores Volmer: *Abildores Kenny* (2022), *Abildores Kenya* (2022), *Sandø's Kára* (2022), *Abildores Lex* (2023) og *Abildores Legend* (2023).
